About Us

Facility Maintenance & Services Group, LLC (FM&SG) was founded on June 23, 2015 by Frank Hall and Dwayne Williams. As long-time friends, Frank and Dwayne are business leaders in their respective communities with almost 50 years of combined experience. Each of them had a vision to create a world class organization where they could be innovators in the field of industrial cleaning, maintenance services and facility management while creating a great place to work. Each of them is passionate and committed to customer satisfaction and to becoming the industry leader through providing excellence. Although FM&SG is a relatively new company, the values it was built on are rock-solid and unyielding. Under the organization's leadership, FM&SG has poised itself to become the industry leader in providing superior maintenance, janitorial and cleaning services for commercial, industrial and residential markets.
